WORK EXPERIENCE

Flutter Developer

Sep 2023 - Present

Freelance | Upwork | Fiverr

- Designed and developed scalable, high-performance Flutter applications for both Android and iOS, achieving a consistent and responsive user experience across platforms.
 - Optimized app performance by implementing advanced caching mechanisms and lazy-loading techniques, reducing load time by over 40%.
 - Built a custom reusable widget library in Flutter, enabling rapid UI/UX prototyping and reducing development time across multiple projects by 30%.
 - Streamlined state management with Getx/Provider to improve app maintainability, enabling smooth data flow and seamless UI updates.
 - Integrated Firebase services (e.g., Firebase Authentication, Firestore, Analytics) to enhance app functionality, security, and user insights without compromising on performance.
 - Led the implementation of CI/CD for Flutter apps using GitHub Actions, automating build and deployment pipelines and reducing manual workload by 60%.
 - Collaborated with designers to implement pixel-perfect UIs that align closely with design mockups, achieving a polished and visually consistent look.
 - Developed a robust app architecture using MVVM/Clean Architecture principles, resulting in improved code readability and long-term maintainability.
 - Reduced app crash rates by 40% through proactive debugging and implementation of detailed error tracking with tools like Sentry.
 - Worked closely with backend developers to design optimized API endpoints, reducing data load time and improving app responsiveness.
 - Conducted usability testing and implemented user feedback to refine app features, leading to a 20% increase in user retention.
- Contributed to open-source Flutter projects and communities, staying up-to-date with Flutter advancements and bringing valuable insights back to the development team.

WordPress Developer

Aug 2022 - Present

Freelance | Upwork | Fiverr

- Built and customized responsive, SEO-friendly WordPress sites using Elementor, WPBakery, and modern themes.
- Created custom plugins and shortcodes with API integrations for payments, CRMs, and live data.
- Customized WooCommerce with tailored checkout, product filters, and multi-vendor features.
- Boosted site speed by 50% using caching, image optimization, and code minification.
- Set up daily backups, firewalls, and uptime monitoring with tools like Wordfence and Jetpack.
- Delivered high-quality solutions to global clients on Upwork with 98% satisfaction.

PROJECTS

Molle App

[View in PlayStore](#)

- Developed a cross-platform event management app using Flutter and Dart.
- Users can browse events, view details, and book event tickets seamlessly.
- Integrated Rozarpay for secure and smooth in-app payment processing.
- Implemented real-time chat feature between users and admin using Socket.io.
- Used Firebase Authentication, Firestore, and Cloud Messaging for secure login, real-time updates, and push notifications.
- Designed a responsive UI with GetX for state management and clean code architecture.
- Focused on scalability, user experience, and real-time communication features.
- Connected to custom REST APIs for dynamic content fetching and user interaction.
- Built responsive UI with modern design patterns, smooth animations, and state management using GetX.

Miami Northwest Express (MNW Express)

[Website Link](#)

- Organized large-scale youth athletic programs serving 250+ athletes annually through structured coaching and mentorship.
- Led weekly mentoring sessions integrating sports training with academic tutoring and life skills development.
- Supported competitive excellence with 80+ state champions, 240 gold medalists, national title holders, and Olympians (including a Bronze medalist in Beijing 2008).
- Managed the annual Miami Northwest Express Classic, a high-profile track meet attracting regional and national youth athletes.
- Promoted holistic youth development by focusing on mental wellness, physical fitness, discipline, and goal-setting.
- Coordinated a volunteer-driven coaching staff, acting as mentors, role models, and chaperones to athletes.
- Maintained a strong digital presence through an official website and active social media engagement (Instagram, Facebook, etc.).
- Oversaw event logistics, including athlete registration, timing systems, results reporting, and venue coordination.
- Published official club magazines and event materials, enhancing community outreach and visibility. Operated under a 501(c)(3) non-profit framework, supporting underserved communities and youth empowerment through athletics.

EDUCATION

Bachelor in Software Engineering (BSSE) – Computer Science

Governament College University, Lahore (Pakistan)

Sep 2025 – Continue

HARD SKILLS

Flutter | Dart | Getx State Management | Firebase | Rest Api's | Provider State Management | GitHub Actions | HTML, CSS | Project Management | WordPress | Elementor | WooCommerce | On-Page Seo

SOFT SKILLS

Communication | Leadership | Time Management | Adaptability | Problem Solving | Teamwork | Creativity | Attention to Detail | Continuous Learning
